## The correct use of technology to prevent digital addictions

Ref. No.: 2024-1-PL01-KA220-SCH-000251896

### Welcome to the 3rd Edition of the DigRight Newsletter!

In this edition, we introduce the organizations behind DigRight — a strong European partnership working together to promote digital well-being and prevent digital addiction in schools.

The DigRight project brings together partners from across Europe, combining expertise in education, digital technologies, and research.

This collaboration ensures that the project's results are innovative, practical, and adaptable to different educational contexts.
